

**FINLAY SCREENING & CRUSHING SYSTEMS PTY LTD
ACN 059 443 677**

PRIVACY AND CREDIT COLLECTION STATEMENT (INCLUDING CREDIT INFORMATION)

Finlay Screening & Crushing Systems Pty Ltd (ACN 059 443 677) and its related bodies corporate (as defined in the Corporations Act 2001 (Cth)) are committed to protecting the privacy of your personal information. You can access our full privacy policy on our website - <http://www.finlay.com.au/privacy-policy/>.

The primary purpose we collect personal information from you is to provide you with specialist crushing, screening and processing equipment for the mining, quarrying and waste recycling industries in Australia. The primary purpose may also include assessing your suitability for employment. We may also use or disclose the personal information for another purpose such as to inform you of relevant updates and changes in the equipment or the industry that may affect you or your business.

Our usual process of collecting personal information is to collect the personal information directly from you. We may also collect personal information from other sources, such as suppliers or creditors, or from banks or other credit providers. We will only collect the personal information from these other sources if it is necessary to provide you with our services or assess your suitability for employment, or you have instructed us to collect your personal information from those sources.

If you do not provide us with your personal information, we may not be able to complete your order, or provide you with our services, or consider your suitability for employment.

Your personal information may be disclosed to other entities such as other service providers (including freight and transport), our debtor financiers, government bodies, and the manufacturers of the equipment we supply to you.

When you buy or your business buys goods from us which have telematics in them, we will disclose your name and email address to Terex Corporation. Telematics is a remote monitoring and fleet management system that combines a machines' inbuilt CANbus control system with satellite positioning and telematics software. This disclosure is to enable Terex to register you in Terex's system and to enable your business's fleet management system. Terex will then collect information from the telematics system relating to the usage, performance, location and reliability of the equipment and will share this information with Finlay. Terex and Finlay will use the information gained from telematics to capture information for warranty, product improvement and customer support purposes. Otherwise, we do not generally disclose your personal information to overseas recipients.

We may also check your credit information with a credit reporting body. The credit reporting bodies we use include Equifax Pty Ltd (formerly Veda) and Dun & Bradstreet and you can contact them through their website at <https://www.equifax.com.au/> and <http://dnb.com.au/> or contact us for further information.

We do not provide your information to credit agencies.

You can request that the credit reporting body not use your information for the purposes of pre-screening for direct marketing by another credit provider. You can also request the credit reporting body not use or disclose credit reporting information about you, if you believe on reasonable grounds that you have been, or are likely to be, a victim of fraud.

Our detailed privacy policy on our website <http://www.finlay.com.au/privacy-policy/> includes further information on how you can access and seek correction of your personal information and how you can complain about a breach of your privacy. The policy also contains information about how we will deal with a complaint. If you have any concerns about the privacy of your personal information, please contact our Privacy Officer Garth Bygate on 07 3888 1777 or by email at gbygate@finlay.com.au.
